About HQD

Established in 2014, HQD mainly engaged in researching and developing electronic cigarettes, atomizers, and provided customers the best vape experience by high standard products and attentive service. HQD has been adhering to the business philosophy of "foundation determines height, innovation leads the future'1, and committed to building core competitiveness driven by independent intellectual property rights.

Due to the philosophy of innovation, HQD quickly becomes a worldwide famous brand. HQD concentrates on design and quality and puts continuous effort into establishing business cooperation with its domestic and overseas distributors. Through making our products more innovative, intelligent and scientific. HQD strives to bring the most advanced products and excellent services to customers and the market.

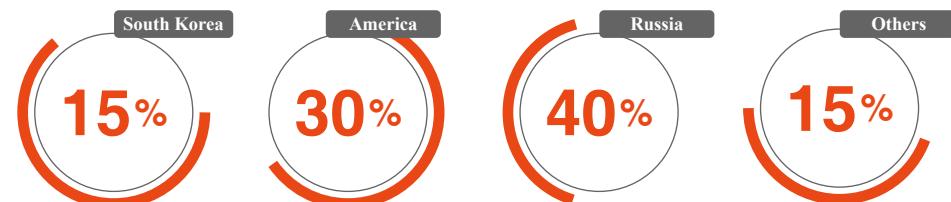

800,000 Pieces Daily Production Capacity		5000+ Employees
50 million Asset		

50000 m² Factory Area	4 billion Annual sales of
--	-------------------------------------

HQD Service

On the strength of the best quality and marvelous design, HQD brings outstanding and distinctive products to the customers and market and enjoys fairly good fame worldwide. Products have been sold to more than 100 countries on five continents with loyal fans of nearly 100 million. After 5 years of development, the number of employees in 5 factories increased from 350 to more than 5000.

HQD has established strategic partnerships with industry top customers, such as Japan Tobacco, Imperial Tobacco, British American Tobacco, 711, GS25, and Wal-Mart, as well as the world Top 500 company. The current daily production capacity is 800,000 pieces. The product sales revenue has exploded, and the total annual sales amount has reached 4 billion RMB in 2021 and expect reach to 5 billion in 2022. HQD has become the largest e-cigarette producer in South Korea and Russia and the third largest one in America.
